## Professional Summary

Motivated Software Engineering graduate from Al- Balqa' Applied University (BAU) with a GPA of 3.89/4.00, specializing in Laravel, JavaScript, and UI/UX design. Skilled in developing secure, high-performance RESTful APIs and user-focused web applications. Proficient in Figma, unit testing, and backend systems including database design and authentication. Experienced in Agile teams using Scrum and Jira for task management and collaboration.

## EXPERIENCE

DEC,2024 – PRESENT

**INTERN WEB DEVELOPER**, APPTRAINERS

Developed dynamic **web applications** using **Laravel and JavaScript**, focusing on performance, maintainability, and user experience. **Designed and implemented RESTful APIs** for a mobile food delivery app, with secure authentication and smooth third-party login integration. Collaborated within an Agile team using **Scrum methodology**, and managed tasks through Jira. Utilized tools like **Postman** for API testing and **Git** for version control and team collaboration.

FEB,2024 – JUN,2024

**INTERN WEB DEVELOPER**, MANASEER OIL & GAS COMPANY

Gained hands-on experience in **backend development** and **database management** using **SQL Server**, including designing and optimizing relational databases. Also contributed to **front-end development**, focusing on creating responsive and user-friendly interfaces to support full-stack application functionality.

## ACHIEVEMENTS

MAR 2025

**FOOD DELIVERY APP**

- Built Database structure.
- Build APIs for Mobile developer that's cover whole user functionalities.
- Built interfaces for Admins in website that cover whole Admins responsibilities.

JUN 2024

### WEBSITE DOCUMENTATION FOR HANDMADE PRODUCTS

- Wrote detailed functional and non-functional requirements.
- created comprehensive UML diagrams to clearly describe the system's behavior and architecture.
- Created detailed project documentation, including UI/UX guidelines and test cases.
- Designed and structured the database for efficient product management.

DEC 2023

### HOTEL RESERVATION SYSTEM (UI DESIGN)

- Designed an intuitive user interface for a hotel reservation system using Figma.

## SKILLS

- **Laravel:** Backend development, RESTful API creation.
- **PHP & MySQL** – Backend and database integration.
- **HTML & CSS** – Strong UI design foundation.
- **Problem Solving** – Backend development and system design require strong logic.
- **Testing** – Test the software to ensure quality and user experience
- **Version Control (Git/GitHub)** – Code collaboration and version tracking.
- **Communication** – Able to document and explain software processes clearly.
- **Time Management** – Balancing training, and self-learning.
- **Team Collaboration** – Worked on group projects and in training teams.

## LANGUAGES

- Arabic: Native
- English: Very Good
